Pastoral Care and Counselling

Let´s just have a talk...
About new experiences or old stories,
about God or the world, about the serious and the light-hearted. In short: about whatever's on your mind.
With us, you'll find the time and space to discuss your concerns.

Counseling for International Students

Those who come from abroad to study in Germany sometimes encounter special challenges.
While we cannot solve all of them,
we offer counseling and support for personal and financial difficulties.

ESG – what does it mean?

The Protestant Student Communities are diverse and open communities of students at universities across the country.
The ESG provides a space for dialogue, interaction and critical thinking. It stands for tolerance and openness towards different world views. Gender, climate protection and human rights are important topics for us.
